**CATEGORY 5 NON-DISPLAY LICENCES – INDEX CREATION FOR REDISTRIBUTION**

The Category 5 Non-Display Use Licence entitles the Contracting Party and/or its Affiliates to Use the Real Time Information, in whole or in part, for the calculation of one or more indices that will be Redistributed. Where such index is calculated on behalf of a third party and some or all of the intellectual property rights of whatsoever nature in that index will vest in that third party or its licensors (i.e. an Index Provider Service), the Category 5 Non-Display Use Fees as set-out in the Information Product Fee Schedule apply to the Contracting Party and the third party or its licensors.

If the Contracting Party and/or its Affiliates are engaged in Category 5 Non-Display Use of Real Time Information, the Contracting Party is required to indicate which tier applies. The Category 5 Non-Display Use Licence is based on the number of third parties that receive and access, via the Contracting Party, its Affiliates and/or one or more third parties, indices that are calculated by the Contracting Party and/or its Affiliates using the Real Time Information.

In the event that the indices, calculated by the Contracting Party and/or its Affiliates using Real Time Information, are solely publicly displayed (i.e. if such indices are solely Redistributed without the requirement of registration of access IDs to access and/or view such indices and no charges are applicable to access and/or view such indices), the tier of 1-10 third parties shall apply.

The Non-Display Use of Real Time Information in the calculation of indices for the sole purpose of the Internal Use of such indices is categorized as Category 4 Non-Display Use and is subject to the respective Category 4 Non-Display Use Licence for Other Non-Display Activities.

The Non-Display Use of Real Time Information in the calculation of the net asset value (or “NAV”) and indicative net asset value (or “iNAV”) is not Index Creation. Such Use is the Creation of Other Original Created Works.

The Use of Euronext index constituents/weights and/or corporate actions in the calculation of one or more indices shall be subject to the Contracting Party entering into another, separate agreement with Euronext.

The Non-Display Use of Real Time Information for the Creation of Other Original Created Works for the sole purpose of the Internal Use of such Original Created Works is categorized as Category 4 Non-Display Use and is subject to the respective Category 4 Non-Display Use Licence for Other Non-Display Activities.

## 7. CFD USE LICENCES

CFD Use Licences entitle the Contracting Party and/or its Affiliates to engage in the Use of Real Time Information Product, in whole or in part, for the calculation and/or provision of prices for trading in contracts for difference (CFDs), spread betting, binary options and other instruments tradable on a CFD Platform in accordance with the Agreement.

Please indicate below whether the Contracting Party and/or its Affiliates are engaged in the CFD Use of Real Time Information.

- Not Applicable**, the Contracting Party and/or its Affiliates are not engaged in the CFD Use of Real Time Information (please proceed to section 8)
- Applicable**, the Contracting Party and/or its Affiliates are engaged in the CFD Use of Real Time Information (please complete the rest of this section 7)

### 7.1 BASIC CFD LICENCE AND CFD USER LICENCE

The CFD User Licences solely apply if the values or prices calculated through the CFD Use of the Real Time Information constitute Original Created Works. The CFD User Fees for the applicable tier apply once per Contracting Party per information Product and in addition to the Basic CFD Licence Fee.

**Tier 1 CFD User Licence** – allows up to 500 (up to and including five hundred) Users to be enabled to access or trade on the CFD Platform(s) of, and/or in case of CFD White Label Services facilitated by the Contracting Party.

**Tier 2 CFD User Licence** – allows up to 2,500 (up to and including two thousand five hundred) Users to be enabled to access or trade on the CFD Platform(s) of, and/or in case of CFD White Label Services facilitated by the Contracting Party.

**Tier 3 CFD User Licence** – allows up to 10,000 (up to and including ten thousand) Users to be enabled to access or trade on the CFD Platform(s) of, and/or in case of CFD White Label Services facilitated by the Contracting Party.

**Tier 4 CFD User Licence** – allows more than 10,000 (more than ten thousand) Users to be enabled to access or trade on the CFD Platform(s) of, and/or in case of CFD White Label Services facilitated by the Contracting Party.

If the Contracting Party can and will provide (auditable) records/proof of the number of Active Users on Euronext's request, including during an Audit, the Contracting Party may base its selection of the CFD User Licence on the number of Active Users. For the purpose of this paragraph an Active User is defined as a User who during a particular month at one time held a position in an instrument where the value or price is calculated based on Real Time Information and constitutes an Original Created Work.

If a User has multiple accounts the Contracting Party is allowed to net these accounts with regard to the CFD User Fees, if it can be demonstrated that the account belongs to the same User. A Contracting Party needs to take into account all active accounts for CFD User Fees if this is not the case.

If the Contracting Party can provide proof, including during an Audit, that it already pays the Display Use Fees for a particular User for the relevant Information Product, this User does not need to be taken into account for the CFD User Licence for the respective Information Product.
