Document purpose

This document aims to provide guidance with regards to the technical launch of Euronext Nord Pool Power Derivatives. This document is intended for Trading Members, Clearing Members and all third parties involved.

Changes since last version

Version	Release	Comments
1.0	December 2026	Original document
1.1	January 2026	<ul style="list-style-type: none">• Update on the section 'General information & timeline' to describe the waves• Update on the 'Risk management' section to reflect the DF call on the different waves• Update on the contact details

General information and timeline

Technical launch of Power Derivatives will take place on **2 February 2026**, 6 weeks prior to the migration of Nasdaq open interest to Euronext, scheduled for the weekend of 14 March 2026. Technical launch will allow members to secure they are operational to run at full speed from the migration.

During the interim period between technical launch and migration, daily settlement prices will be aligned to Nasdaq market.

Trading and Clearing members willing to participate from the technical launch will be offered **5 separate windows / waves to go-live from 02 February until 02 March 2026**, in advance of the migration.

Please note that:

- Members should confirm their intention to go-live, and their readiness, at the latest 10 days prior to the targeted go-live window (i.e. a confirmation on 6 Feb. for a go-live on 16 Feb.).
- The default fund will be called on the Thursday preceding each wave.

Product, business development and market design

Types of contracts and maturities available

From 2 February 2026 until the migration weekend, only daily, weekly and month-in-delivery contracts expiring by 12 March 2026 will be tradeable and clearable in production on Euronext Nord Pool Power Futures market (please see instruments below and full list in appendix).

EURONEXT Power Contracts	DAY	WEEK	MONTH
Nordic Power Base Future	NSBD	NSBW	NSBM
Nordic EPAD Base Future, Arhus			ARBM
Nordic EPAD Base Future, Bergen			BEBM
Nordic EPAD Base Future, Copenhagen			CPBM
Nordic EPAD Base Future, Helsinki			HLBM
Nordic EPAD Base Future, Kristiansand			KRBM
Nordic EPAD Base Future, Lulea			LLBM
Nordic EPAD Base Future, Malmo			MABM
Nordic EPAD Base Future, Oslo			OSBM
Nordic EPAD Base Future, Stockholm			STBM
Nordic EPAD Base Future, Sundsvall			SUBM
Nordic EPAD Base Future, Trondheim			THBM
Nordic EPAD Base Future, Tromso			TRBM

From 16 March 2026, after the successful migration of open interest from Nasdaq, all contracts will be fully open for trading. These Contracts are described in the [Contract specifications](#). Maturities are listed in the [product calendar](#). Both documents are available on Connect: [Euronext – Power Derivatives](#), under the section Technical & functional documents.

Please note that all Nordic EPAD Base Future Vilnius maturities will be listed post migration

Regions covered by Euronext Nord Pool Power Futures

The market encompasses the Nordic System Price and Electricity Price Area Differential (EPAD) contracts across all Nordic and Baltic bidding zones.

EPAD auctions

EPAD auctions will continue to be cleared at Nasdaq Clearing until the migration, and will start to be cleared at Euronext Clearing from the week of 16 March 2026 onward. From this date, the Transmission System Operators (TSOs), namely SVK in Sweden and Statnett in Norway, will clear the auction positions at Euronext Clearing.

Prerequisites to start trading

Steps to onboard as Trading Member

All technical and contractual steps needed to complete the onboarding are listed in the onboarding journey, available [here](#) and on Connect: [Euronext – Power Derivatives](#), under the section General documentation.

Customer testing availability for Trading Members

Customer testing is available since March 2025. Testing certification is expected by 16 January 2026 to be able to execute and clear trades ahead of the migration. Documentation is available on Connect: [Euronext – Power Derivatives](#), under the section Conformance test documentation.

Access to the trading platform

A Member Firm can connect to the Optiq Trading Platform using a **direct connectivity solution**, by requesting Euronext to activate both **TCP and multicast services**. Alternatively, a Trading Member may connect via an **indirect connectivity solution** (ASP/ESP), leveraging the ASP's infrastructure to receive market data and access Optiq.

To establish connectivity, each Trading Member Firm must confirm the **trading application** it will use and request the required **Logical Accesses**, including both **Trading** and **Drop Copy** Logical Accesses.

Trading ISVs available

The full list of trading software available is public and published on Euronext website at the following link: [ISVs, ASPs and other suppliers | Euronext](#).

Prerequisites to start clearing

Steps to onboard as Clearing Member

All technical and contractual steps needed to complete the onboarding are listed in the onboarding journey, available [here](#) and on Connect: '[Euronext Clearing - Power Derivatives](#)', under the section Guidelines.

Customer testing availability for Clearing Members

Customer testing is available since March 2025. Testing certification is expected by 16 January 2026 to be able to clear from 2 February 2026. Documentation is available on Connect: '[Euronext Clearing - Power Derivatives](#)', under the section Tests.

Account structure setup prior to technical launch and prior to migration

Target account structure defined for the migration will be used also for the technical launch. No mirrored account structure is needed.

Price management between technical launch and migration

Management of end of day settlement prices during the interim period between the technical launch and migration

Euronext will align their daily end of day settlement prices to Nasdaq daily settlement prices.

Management of end of day settlement prices after the migration of open interest from Nasdaq Clearing to Euronext Clearing

After the migration the intraday pricing will be based on trading activity and BBO's in the market. The settlement prices will be a VWAP calculation according to Euronext rules. For information, Nasdaq will align their daily end of day settlement prices to Euronext daily settlement prices until their Power derivatives clearing activity wind down.

Liquidity provision

An important liquidity provision scheme was contracted and secured two-way prices for all Nordic EPAD contracts (and most of the System price curve). The scheme is set to start from 16 March 2026, following the migration of open interest from Nasdaq to Euronext Clearing.

If you are interested to learn more about the liquidity provisions programmes and would like to apply, please contact Nord Pool Exchange desk (PowerDesk@nordpoolgroup.com).

Risk Management

Risk Methodology defined for Power Derivatives

All the methodological documentation can be found on Connect: '[Euronext Clearing - Power Derivatives](#)'.

Default Fund Contribution Quota Criteria

Specific Default Fund contributions will be calculated for the interim period between the technical launch and the migration of open interest. Criteria are described below:

- Base quota: 500k€ for each GCM/ICM.
- Additional quota: 100k€ for each Trading Client to be added to GCM base quota.
- Cap: 1M€ at GCM level.

For the migration, Default Fund contributions will be calculated using the designed methodology (cf. above) and applied to Nasdaq migratable positions (SLOIM metric, Cover 2 assumption).

Timeline for Default Fund prefunding for the technical go-live on 2 February

- Monday 26 Jan 2026: communication of Default Fund contribution quota to GCM/ICM [5 business days before technical launch].
- Thursday 29 Jan 2026: payment of Default Fund quota [2 business days before technical launch].

Timeline for Default Fund prefunding for the following go-live waves

- Thursday prior to the go-live wave (i.e. DF call on Thursday 5 Feb. for a go-live on 9 Feb).

Regulatory & Legal

Regulatory reporting obligations to trade on Power Derivatives platform

Power Derivatives are subject to the following regulatory requirements for reporting:

- **MiFID II / MiFIR**: Regulates trading transparency, venue obligations, pre- and post-trade transparency, position reporting and transaction reporting for derivatives.
- **REMIT** (Regulation on Wholesale Energy Market Integrity and Transparency): Governs trading and fundamental data reporting for energy products to ACER.

Euronext Amsterdam is supervised by and reports to the Dutch financial markets regulator AFM (Autoriteit Financiële Markten). Additionally, Euronext Amsterdam reports to:

- **ESMA**
- **ACER**

Please note that Euronext Amsterdam's authorisation to submit reports to ACER as a Registered Reporting Mechanism ("RRM") is currently in progress. During the interim period, starting from the 2nd of February until this authorisation is in place, Nord Pool — an existing RRM within the Euronext Group and an affiliate of Euronext Amsterdam — will carry out the ACER reporting activity.

Participants must arrange additional reporting if required by their location or regulatory status.

Main regulatory reports

Euronext provides or facilitates the following reports:

- **RTS 2** – Pre- and post-trade transparency data
- **RTS 22** – Transactions reporting for non-MiFID members
- **RTS 23** – Instrument reference data
- **RTS 24** – Market events (orders, amendments, cancellations, trades)
- **ITS 4** – Daily position reports
- **CoT** – Commitment of traders reports
- **REMIT** – Transaction and fundamental data reports to ACER (incl. option for data delivery to Equias as RRM to ElCom for Swiss members)
- **RTS 8** - Market Making Agreements and Schemes

Reporting services provided by Euronext and required input

Reporting Service	Handled by Euronext	Requires Participant Input	Where - Application
Positions reporting (ITS 4) to AFM	✓	⚠ Either full positions information are required daily or only a subset of data (Static Data: LEI, risk reduction indicator, etc.) once (Automatic CPR)	Saturn
CoT reporting to ESMA			
REMIT reporting to ACER	✓	⚠ Participant must provide their ACER code during onboarding	MyENX
REMIT reporting to other NCAs	✗	⚠ Participant to provide data where Euronext doesn't report (unless subscribed to Automatic CPR). Euronext generates the REMIT report for submission to ACER and makes both the submitted file and ACER's feedback file available to customers via the CFTS file server.	N/A. Files available on CFTS
RTS22 : Transaction reporting for non-MiFID participants	✓	⚠ Additional data such as NATIONAL ID or CONCAT might be requested. SLC mapping mandatory	Saturn
RTS22 : Transaction reporting for MiFID customers	✗	⚠ Participant must report directly to their ARM	N/A
SLC Mappings (order-to-report fields)	✓	⚠ Participant to map order short codes to report long codes. These codes are used in RTS22 and RTS24 files	Saturn
RTS2, RTS23 reporting to ESMA	✓	✓ No further details are required. Euronext will fully manage the reporting process.	N/A
RTS24 reporting to AFM	✓	⚠ SLC mapping mandatory	

Agreements for regulatory reporting

Euronext requires participants to sign the **Supplementary Terms & Conditions** for REMIT services and the **Automatic CPR (Commodity Positions Reporting)**.

Reporting obligations apply to clear on Power Derivatives

The regulation applied is EMIR (European Market Infrastructure Regulation), EMIR is an EU regulation designed to increase transparency and reduce systemic risk in the derivatives market. It imposes obligations on counterparties and clearing members, including reporting, clearing, and risk mitigation requirements.

Fees

Applicable trading and clearing fees

Trading, clearing and market data fees are available on the relevant Euronext web pages:

- Link to trading fees: [Trading fees and charges | Euronext](#) (see in particular Euronext Derivatives Markets Fees and Charges, and Euronext Order Entry Gateway Sessions Fees and Charges)
- Link to clearing fees: [Membership | Euronext Clearing](#) (see section under Euronext Clearing Fees and application forms)
- Link to market data fees (real-time): [Market Data Fees and Policies | Euronext Data](#)
